

**TALK-CAR**, You can use it according to the driving situations.

The roadway like fierce savannah.  
It's so stuffy, right?  
In times like this, ask for.

Please yield TT

To the person who made you  
go ahead first on the busy road!  
Finally, you can say it.

Thank you so much.

On the roadway late evening and you  
can recognizer they are high beams,  
talk to the car driver.

Too much lightning!

The friend next to me needs to get off  
for a seconds, but the cars are running  
in the back. Let them know.

I stop soon!

**TALK-CAR is  
coming to you soon  
for your safety driving.**

Drivers Communication  
Display TALK-CAR  
Coming Soon.**

## An inexperienced driver

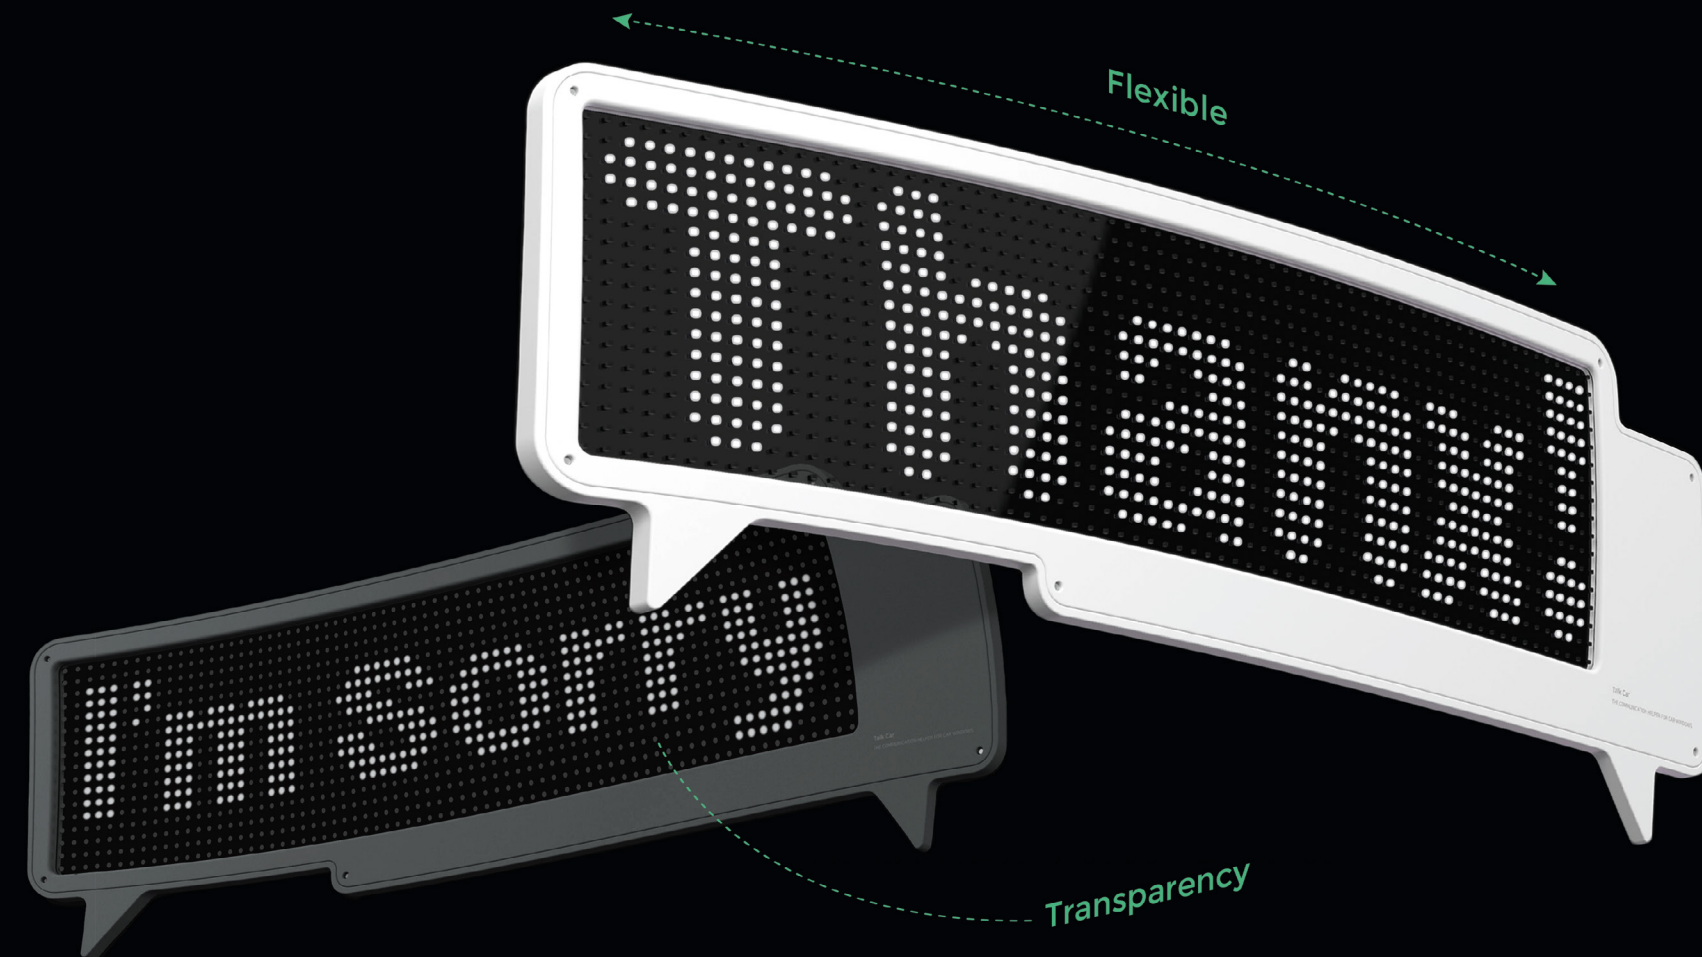

Hard to change lanes, Hard to park,  
but other drivers don't know how I'm embarrassing  
and feel sad cause they didn't give me a way to go...,  
has this ever happened to you?

## The brilliant lights of the car behind you at night

Driving after dark, have you ever feel uncomfortable  
with the high beams from the car after you?  
I wave my hand and turn on the emergency light,  
but it doesn't recognize me. :((

## A Traffic Jam, Hard to change lanes

The road is jammed back and forth,  
and 'I have to get out of it'. But don't you feel  
it's hard to change lanes to the way out?  
Can't you just keep the winker/turn signal on?

## Specifications

### Display

Size 160 x 640 x 2(mm)  
Transparency Product 50% / Display 70%  
Input Power DC 12-24V  
Power Consumption 30W  
Resolution 1,280 pixel

LCD touchscreen,  
up and down scroll buttons,  
LED internal, infrared sensor

※ The above specifications are subject to change,  
developing a better product.

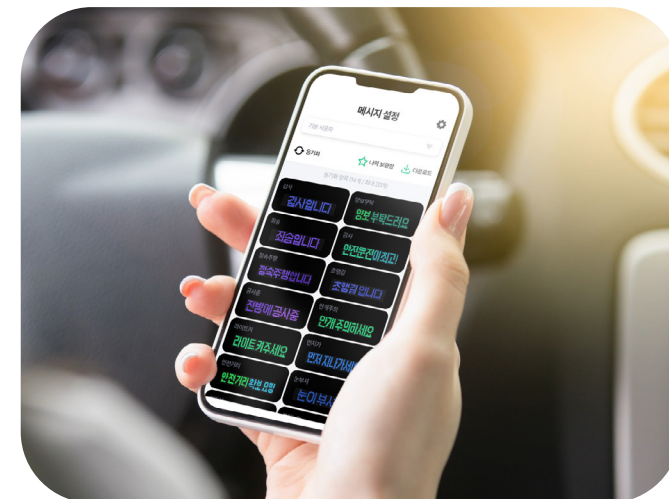

### Transparent display

Attaching the display to the rear window of  
the car is translucent, which reduces the  
discomfort of driving vision.

### Application Settings

Download and set up a variety of  
messages with free downloads on your  
Android and IOS system.

### Messages

You can download various high-quality messages  
through the APP, TALK-CAR. The message  
production function is not provided because social  
issues (cursions, politics, slander) are expected.

### Remote controller

Operating your smartphone while  
driving can cause accidents by  
making you unable to concentrate on  
driving. Provide a remote controller  
that can be fixed on the sun visor for  
more safe operation.

### Legal issues

There may be legal issues, according  
to the safety regulations of  
automobiles in each country. The  
manufacturer, Uniict, has obtained  
special regulatory permission in  
South Korea and will release services  
suitable for each country's laws.
